WHAT IS GOING ON HERE?

CLARK COUNTY HAS A NEW PROGRAM TO RECYCLE STYROFOAM PACKAGING

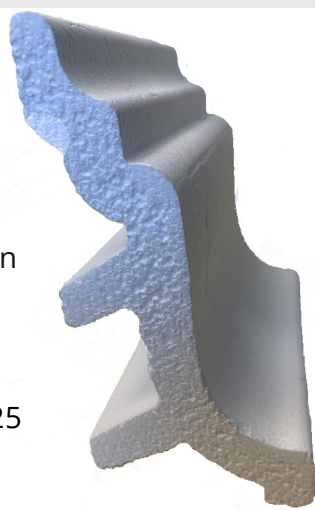

The Clark County Solid Waste District is now operating a new machine used to "densify" expanded polystyrene (EPS) packaging better known as Styrofoam. The densified foam is recycled to make new products, like picture frames and crown molding.

WHO CAN USE THIS PROGRAM?

BUSINESSES AND INDIVIDUALS CAN USE THIS RECYCLING PROGRAM

Individuals can drop-off packaging Styrofoam in our container located at 1620 W. Main St. in Springfield open to the public 24/7.

Businesses are encouraged to call 937-521-2025 to discuss our bag drop exchange program.

HOW MUCH DOES THIS COST?

THE PROGRAM IS FREE...

The only cost is taking the time and effort to drop the material off at our 1620 W. Main St. location in Springfield.

WHAT IS STYROFOAM PACKAGING?

WE WANT RIGID MOLDED WHITE FOAM PACKAGING

We can recycle clean white rigid foam packaging that is typically used to prevent shipping damage or is used to make foam coolers used to ship perishable items.

WHAT'S NOT ACCEPTED?

NO CUPS, PLATES, FOOD CONTAINERS, PACKAGING PEANUTS
